Bridgercare will add Integrated Behavioral Health services this year!

During Bridgercare's strategic planning sessions, our Board of Directors, staff, patients and community members identified access to affordable mental health services as the top issue. At Bridgercare, we believe it is critical to make physical and mental health services accessible to all patients.

We have secured 75% of funding needed to add a full-time Licensed Clinical Social Worker (LCSW) to our team and offer Behavioral Health services in the clinic.

HAVENcare is the perfect illustration of what collaboration can accomplish. Bridgercare's dedication to providing safe, inclusive, high quality services to the survivors of abuse HAVEN works with has allowed so many members of our community receive life-saving medical care free of charge. HAVEN is grateful for all the ways in which our two organizations can work together to support survivors here in the Gallatin Valley.
